#### 4. Qualitative Information on Quarterly Results

##### Qualitative Information on Consolidated Business Performance

- European markets were bearish due to the effects of the debt crisis. On the other hand, the Americas and Japanese markets were recovering, the latter due to the effects of a weaker Japanese yen.
- The Yaskawa Group has focused its sales promotion efforts on favorable markets outside of Japan, aided by a weaker Japanese yen. The sales of the Motion Control segment have been firm in Japan, China and the rest of Asia.

Considering the above, the Yaskawa Group is currently implementing the following policies and measures:

- Increase bookings in favorable and growth markets.
- Develop R&D, production and sales capabilities to quickly respond to rapid changes in the business environment.
- Shift resources to new business areas in order to speed up new business development.

The business performance of each business segment for the first quarter of fiscal 2013 is as follows.

The divisions of the reportable segments changed starting this first quarter. The changes from the corresponding period of previous fiscal year are calculated based on the new segment divisions.

(Millions of yen, except ratio)

- Steady growth of sales to automobile industry segment outside of Japan.
- Both net sales and operating income have increased compared to FY2012 Q1 due to the above.
